EDUCATION

National University of Science and Technology (NUST)

B.Sc. in Computer Sciences.

Islamabad, Pakistan

Sep 2022 – Jun 2026 (Expected)

WORK EXPERIENCE

Adept Tech Solutions

Frontend Developer

Hybrid

Sep 2023 – Present

- Full Stack Developer with 1+ year of experience working remotely at a USA-based Data Analysis Company.
- Experience working on both the front-end and back-end of web applications, as well as on integration projects.
- Proven ability to work independently and as part of a team to deliver high-quality products on time and within budget.

Nust Startup

Web Designer

On Site

July 2023 – Sep 2023

- In my role as a web developer, I was responsible for designing and launching our startup's website. This experience taught me a lot about web development principles and best practices, as well as the importance of teamwork and collaboration.
- Drove innovative web design initiatives at Nust SEB, crafting user-centric solutions aligned with the organization's ethos.
- Proficient in troubleshooting design challenges, ensuring seamless functionality and aesthetic appeal.

Waste Hero

Graphic Designer

Remote

July 2023 – August 2023

- Orchestrated compelling visual strategies at Wastehhero, crafting posters, social media content, and standee designs to foster waste consciousness and promote waste minimization.
- Integrated multi-dimensional creativity, merging graphic design and video editing prowess to deliver impactful content aligned with Wastehhero's commitment to propagating effective waste management methodologies.

PROJECTS

AlgoScribe | [View](#)

- Bringing algorithms to life, AlgoScribe is my full-stack brainchild. This interactive platform visualizes complex concepts through captivating animations, built with React, Scss, and Firebase. Users of all levels can explore various algorithms and their inner workings, making learning DSA engaging and unforgettable.
- You can use to preview website – email: "h@gmail.com" — pass:"123456"

Magma Designer | [View](#)

- Pixel-perfect Magma Designer clone showcases mastery of UI/UX and development in vanilla Js, Gsap and Scroll Trigger.

RevivStyle - Fashion Business | [View](#)

- From sketches to shop floor, I stitched together a dynamic fashion website with Gsap flair, launching a startup's style. This keeps the fashion theme, highlights React and Gsap skills, and adds a little punch with the "stitched together" metaphor. I hope it's the perfect fit!

Inventory Dashboard | [View](#)

- An inventory dashboard website, built with React, SCSS, and MUI Material, meets industrial standards while boasting a modern UI/UX design.

SKILLS
